

## Dipesh Shrestha

Address : Nayabazar, Kathmandu  
Email : [dipeshshrestha4220@gmail.com](mailto:dipeshshrestha4220@gmail.com)  
Website : [dipeshshrestha10.com.np](http://dipeshshrestha10.com.np)  
LinkedIn : [Dipesh Shrestha](#)  
GitHub : [DipS1017](#)

## Professional Skills

Frontend : HTML, CSS, JS, SASS, Tailwind, React JS, Next JS,  
Backend : Node JS, Pup  
Database : SQL, NoSQL, MySQL  
Version Control : Git

## Education

- Bachelor in Computer Application (BCA)  
Prime College, Nayabazar, Kathmandu  
6th semester running

## Work Experience

- Freelance  
Junior Frontend Developer Jan 2024 - Feb 2024  
Internship PHP Developer Nov 2022 - Jan 2023

## Project Contribution:

1. Biometric System (Internship PHP Developer)  
Developed a biometric system using PHP and MySQL to register exam attendees. The system includes a user-friendly web interface for data input and efficient management of biometric records, ensuring accurate and secure attendance tracking for exams.
2. Professional Portfolio (Junior Frontend Developer)  
Developed a personal portfolio website using TypeScript, showcasing my projects, skills, and experience. The site features a clean, responsive design and interactive elements, providing a comprehensive view of my professional journey and technical capabilities.

### 3. Front-End Challenge

Successfully developed a design-accurate website based on Figma prototypes within a short timeframe as part of an internship challenge. Demonstrated strong attention to detail, rapid development skills, and the ability to deliver high-quality results under tight deadlines.

### 4. Doctor Appointment System

Eon tools is a free online tools provider built with HTML, CSS, JS and PHP. I was involved in creating different designs for different pages such as categories, all tools and different categories of tools such as sports tools, education tools and food tools.

### 5. E-Commerce

Developed a comprehensive e-commerce platform using the MERN stack. The platform features secure user authentication, real-time updates, a dynamic product catalogue, pagination, JWT, and an admin panel for efficient product management.
